

COMMUNITY CALL TO ACTION

Your Fellow Oregonians Need You!

Our first responders are in danger of losing their jobs, and their licenses! The list of medical and emergency staff who are faced with termination and expenditure if they do not comply with Governor Brown's unconstitutional and illegal mandates, is catastrophically large. It includes family doctors, surgeons, nurses, hospice workers, in home caregivers, rural and local fire fighters, EMT's, dentists, eye specialists, and more!

Without our local first responders we are a community at risk!

OPERATION BOSTON TEA PARTY

WITHHOLD YOUR PROPERTY TAXES!

Letters with over 300 signatures have been sent to Baker City Council, Attn. Mayor McQuisten, Sheriff Travis Ash, and the Baker County Commissioners. The letters requested public declaration of county wide mandate defiance, implementation of a self governance measure, and a warning that property taxes will be withheld if further action is not taken by these local government bodies to stand for our freedoms against these mandates. Two of these letters have been ignored. We have received no response from Sherriff Ash, or Mayor McQuisten. One City Council member confirmed that the council was not presented with the letter despite its documented delivery to the Mayor on Sept. 9th. This counselor also confirms that the impending lawsuit against Governor Brown has been dropped by city council. The County Commissioners did reply with a weak, canned email that did not address our concerns. **Therefore we are asking you, as a resident of Baker County, to join our movement in holding our elected officials responsible for their duty to uphold their Constitutional oath, and defend their community!** Do not pay your property taxes for the October/November 2021 period! Stash them away until our elected officials do their duty and make our community a priority!

THE DEADLINE FOR PROOF OF VACCINATION OF MEDICAL STAFF IS OCTOBER 18TH.

These first responders are your mothers, husbands, fathers, wives, sisters, brothers, extended family, pastors, co-workers, and your neighbors.

Do not let their livelihoods and freedom of choice be destroyed !

Stand united for medical freedom!

Stand for yourself. Stand for Baker County. Stand for your neighbors. Stand for Oregon. Stand for your country.
